

Estimated time needed: 10 minutes

Objective for Exercise:

- Share your notebook from Watson Studio

### Step 1: Share your notebook from Watson Studio:

Once you complete your notebook you will have to save and share it to be marked.

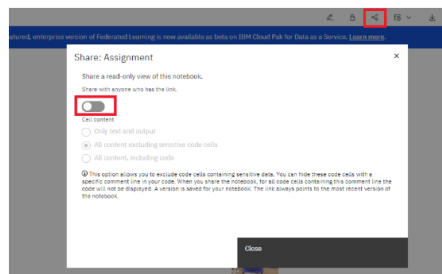

To save the notebook, click on the save icon on the top left.

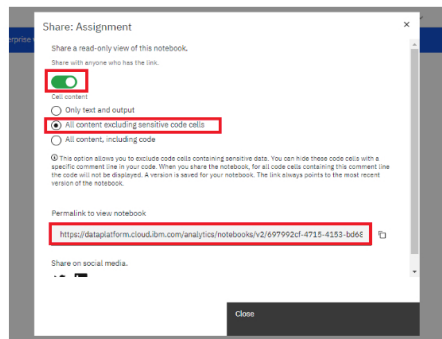

Select the icon on the top right marked in red in the image below.

A dialogue box should open, enable the option marked in red in the image below.

Once the option is enabled select the option all content excluding sensitive code cells and you can then share the notebook by copying the URL in the **Permanent link to view notebook**, as shown in the following image:

Paste the URL in a new browser window and check if the notebook is rendered as intended before sharing it for review with your peers.
